Audit Findings

Audit Narrative

Two weeks prior to the on-site audit I received a disc with documents for the standards. One day prior to the on-site audit, the auditor picked up a listing of all inmates by housing assignment and a staff listing by shift assignments of staff currently working with inmates. A list of all inmates currently at the facility by housing unit and Inmates with a physical or cognitive disability, inmates who are LEP, Transgender, intersex, gay, bisexual, inmates placed in segregated housing for their own protection from sexual victimization, inmates who reported sexual abuse that occurred in the facility, and inmates who reported prior sexual victimization during risk screening. From these listings, one (1) inmate from each housing unit, one (1) segregated inmate, three (3) who reported sexual abuse or harassment and five (5) listed as non-heterosexual or transgender, three (3) inmates with limited English speaking proficiency were interviewed utilizing the language line and one (1) inmate reporting sexual victimization. One (1) visual and one (1) hearing impaired inmate was interviewed. There are no youthful inmates assigned to the facilities. There were eleven (11) self-admitted gay/bisexual inmates and three (3) transgenders and no inter-sex inmates assigned to the facility. A total of twenty-seven (27) random inmate interviews were conducted. Ten (10) specialized inmate interviews were conducted. The IBAS identification system identified no potential predators or potential victims. Ten (10) random staff interviews were conducted and included staff from all work shifts and all areas of the facilities. The specialized staff Interviews included eighteen (18) interviews for staff designated as: intermediate/higher-level, medical, mental health, contractor, investigative, screening for risk of victimization and abusiveness, supervisors in segregation, incident review team, monitors retaliation, first responder security, intake staff and a volunteer. During the tour the auditor randomly spoke with ten (10) staff and forty-eight (48) inmates. There are fourteen (14) volunteers, forty-three (43) vendors and thirty-two (32) medical contractors approved to enter the facility on a daily basis.

On arrival the team proceeded to the conference room in the administration building. The team expressed their appreciation for the opportunity to be involved with the Bay Correctional Facility in the PREA process. The team went over the schedule of the audit and additional items we would like to review. Following the entrance meeting with staff, the warden led a tour of the facility from 8:00 am to 11:30 am September 26, 2017. The auditors went back to certain areas in the institution on September 26-27, 2017. While touring several inmates and staff were questioned about their knowledge of PREA standards, procedures for reporting, services available and their responsibilities. Most staff and inmates informally interviewed during the tour acknowledged receiving training and procedures for reporting sexual abuse, sexual harassment and/or retaliation for reporting. During the tour the auditor reviewed staffing; logs; physical plant; sight lines;

tested the inmate phone system for reporting allegations and institution operations. Following the tour, the auditor began the formal interviews, inmate intake and screening records, staff training records, documentation of inmate education, and sexual abuse investigation reports. During the past twelve (12) months, the number of allegations of sexual abuse and sexual harassment that were received is four. During the past twelve months, the number of allegations resulting in an administrative investigation is four. Two sexual abuse cases and two sexual harassment. There was one case closed. Bay CF does not house inmates solely for civil immigration. There are no youthful inmates assigned to Bay CF.

Facility Characteristics

Bay Correctional Facility, located at 5400 Bayline Drive, Panama City, Florida, is a privately operated medium security institution with multiple custody levels assigned. The prison has a lawful capacity for nine hundred eighty-five (985) adult male felony offenders and houses medium, minimum, and community custody offenders with assessed medical grades of 1 through 3 and psychological grades of 1 through 3. The facility inmates are confined within a perimeter which includes 2 twelve-foot fences topped with double-row razor ribbons and secured at the bottom to a concrete skirt with additional razor ribbon. The inner perimeter fence is equipped with an electrical stun fence system. Perimeter security is enhanced by one armed mobile patrol outside the fences. The fence system includes adequate lines of sight and light to insure perimeter security both day and night.

Bay Correctional Facility is designed and constructed to house hearing impaired and mobility impaired offenders. There is a total of four (4) buildings housing inmates. Three of which are secure, two-man cell units and one housing unit consisting of open bay dormitories. In "A" Building, there are 4 housing units two-man cell units. Pod "A" is the designated, secure confinement unit which includes fifty-four (54) beds and is inclusive of administrative and disciplinary detention. Pod "B" contains fifty-six (56) beds, Pod "C" and Pod "D" each contain sixty-four (64) beds, giving Building "A" a total capacity of two hundred thirty-eight (238). Building E houses units "E, F, G and H" each consist of four (4) two-man cell units, each with a capacity of sixty-four (64) beds. This gives each of these housing units a total capacity of two hundred fifty-six (256) beds. Building F Houses units "J, K, L and M" each consist of four (4) two-man cell units, each with a capacity of sixty-four (64) beds. This gives each of these housing units a total capacity of two hundred fifty-six (256) beds. Housing unit "H" is the one open bay housing unit and contains "N, O, P Q, R and S" dorms. These house forty-eight (48) in each dorm with a capacity of forty-eight (48) offenders each for a building. This gives the unit a total capacity of two hundred eighty-eight (288) beds.

Outside the secure perimeter Bay Correctional Facility has a maintenance shed and storage trailer.

Summary of Audit Findings

Instructions for Overall Compliance Determination Narrative

Building "A" has a housing unit with no staff assigned to supervise. They rely on staff from another unit to do security checks. It has four separate quads A-1, A-2, A-3 and A-4. There are 2 officers assigned to A-1 (confinement) at all times and 1 officer assigned for the control panel in the A-1/A-2 side. There is one officer assigned for A-2 and another assigned for A-3/A-4. Quad 1-2 have 56 beds assigned. Quad 3-4 have 64 beds assigned.

Building "E" has two housing units with no staff assigned to supervise. There is a total of three staff assigned to supervise 4 units. Two staff rove between four housing units. They are separated by a hallway in the middle. There is one officer assigned to each side on an all-day basis and one officer assigned to rove in between the four quads and assist with checks and counts. Each quad has 64 beds assigned.

Building "F" has two housing unit with no staff assigned to supervise. Two staff rove between four housing units. They are separated by a hallway in the middle. There is one officer assigned to each side on an all-day basis and one officer assigned to rove in between the four quads and assist with checks and counts. Each quad has 64 beds assigned.

Building "H" has six housing units with two staff to rove between six housing units. There are three officers assigned to the dorm at all times on every shift. One officer must stay in the "H" dorm control room to operate the doors within the unit. The other two officers rove between the six wings, conduct security checks and counts. Each wing is an open bay setting with 48 bunks.

The facility disagreed with the auditor finding based on housing definition. They state a building is a housing unit. Each building has four quads and in one building six quads. The auditor based his finding on the working group definition of housing unit from the auditor manual. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations.

Video coverage of units was installed in the mid-nineties. The cameras are fixed without pan and zoom capabilities. The visitation area has pan and zoom cameras.

Shift supervisors make unannounced rounds in all housing units. The rounds are documented in housing unit logs and control room logs.

Instructions for Overall Compliance Determination Narrative

Bay Correctional Facility is an **adult male** facility. Policy states shall not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances; and shall document all cross-gender strip searches and cross-gender visual body cavity searches. Based on documents reviewed and interviews of staff and inmates, Bay Correctional Facility has not conducted cross-gender strip searches or cross-gender visual body cavity searches in the last twelve months. Departmental Policy states institutions shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status; and if the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Staff is trained how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. Through interviews of staff and inmates it was determined staff do not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status, and only medical staff if needed would make that determination. Review of training records, lesson plans, and interviews of staff demonstrated staff had been trained to conduct how to conduct cross-gender pat down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Open Bay Dormitory housed inmates are provided privacy while showering (half walls) and while using the bathroom. Female staff announce each time they enter into the housing units. This process was verified during the tour and with the interviews conducted with the inmates and staff. Housing Logs show the announcement made at the beginning of each shift.

Housing and Control Logs show the Officer in Charge making unannounced rounds. Spot checks of the video confirm the unannounced rounds being made.

Instructions for Overall Compliance Determination Narrative

The Department has established procedures to provide inmates with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Department ensures that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The auditor interviewed three limited English proficient inmates utilizing the Language Line. They indicated that staff has provided them information on PREA reporting. The auditor verified a staff translator list was available. The Department has a contract with Language Line for all languages. The Language Line is available for use by staff when a staff translator is not available. There are posters in English and Spanish posted in the housing units. Policy prohibits the use of inmate interpreters except in emergency situations or the inmate's safety would be compromised. Staff and inmate interviews all supported that inmates would not be relied on as translators. An inmate translator was not used in a PREA allegation during the previous twelve months.

Posters and inmate handbooks are provided to inmates or posted in the housing units in formats accessible to all inmates. Information provided included: inmate rights; how to report; what to expect after you report; and how to protect yourself against sexual assault. During the tour and interviews most inmates acknowledged the information being provided upon arrival and orientation. The system is IBAS (Inmate Behavioral Assessment Scale). The Department utilizes a complex web system designed by the Bureau of Classification Management to identify potential inmate predators, prey and those inmates at risk for sexual violence either as an aggressor or as a victim. This is a multi-tiered system that performs a variety of significant functions including ensuring appropriate housing of identified and potential predators and sexual aggressors. Criteria to include past violent convictions, violent disciplinary reports, STG affiliation, release dates, as well height and weight differentials are considered when housing inmates. The housing officer must review and approve any bed changes made.

The auditor interviewed members of the security and classification staff to question them on how the IBAS system is used to determine work/housing and education assignments. Each explained how it was used in detail considering victimization among other things. The placement of transgender and/or intersex inmates is done only after a review committee has reviewed the case. Transgender/Intersex inmates receive a face-to-face review with mental health staff within fourteen days of arrival, biannually and anytime in which their program assignment, work assignment, discipline record as well as their views with respect to their safety is questioned. Additionally, inmates who are identified as at high risk for perpetration or victimization are monitored through the IBAS system, to ensure inmates are not assigned to work, housing or education assignments in a manner that might increase their propensity for abuse. There are three transgender/intersex inmates assigned to Bay Correctional Facility. Staff interviewed acknowledged transgender/intersex inmates would be given an opportunity to shower separately.

Instructions for Overall Compliance Determination Narrative

Bay Correctional Facility provides three ways for inmates to report sexual abuse, sexual harassment, and retaliation by other inmates or staff for reporting sexual abuse and sexual harassment. Inmates can also report to staff verbally or in writing. Departmental and GEO website provides for third party reporting. During the tour the phones were tested. Calls went to an answering machine. Examples of inmate reporting through different means were reviewed when incident reports were reviewed. During interviews staff stated they accept reports made verbally, in writing, and from third parties, and are promptly documented by incident report. Staff training covers the ways for staff to report sexual abuse and sexual harassment of inmates. During interviews some staff knew they could report sexual abuse and harassment of inmates to the Inspector General. Posters and other documents on display throughout the facility also explain the reporting procedures. The PREA pamphlet and the inmate handbook address this standard. Bay CF does not house inmates solely for civil immigration.

The facility was revisited and phones checked. The phones were answered by outside vendor who then contacts the facility reporting the allegation. Before reporting they request the facility to have the inmate sign a release of information form allowing them to provide details to the facility. They also report allegations when the inmate requests to remain anonymous.

Inmates may file a grievance; however, all allegations of abuse or harassment, when received by staff, would immediately result in the opening of a formal investigation (criminal or administrative). This process would not involve staff who may be the subject of the complaint.

FAC 33-103.006 states "If the inmate or third party is filing a grievance involving sexual abuse, it shall be clearly stated in the first line of the grievance that it is a grievance related to sexual abuse. Also on Form DC1-303 the third party filer shall check the box next to Third Party Grievance Alleging Sexual Abuse. If this statement is not included in the grievance and if the third party box is not checked, the grievance shall be responded to. This will not be a reason to return the grievance without action to the filer". There were four grievances filed in the previous twelve months that were responded to within five days. Instructions for Overall Compliance Determination Narrative

Procedures clearly specify how to respond to an allegation of sexual abuse for both security and non-security staff. Random interviews with staff confirm both security and non-security staff knew what to do upon learning an inmate was sexually abused to include separating the alleged victim and abuser; how to preserve the crime scene; and what actions inmates should not take in order not to destroy physical evidence including, as appropriate, not washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating;. Staff was very cognizant about ensuring safety and well-being of an alleged victim while insuring that physical evidence is not destroyed or contaminated. Training records and staff interviews confirm the staff is trained as first responders.

In the past twelve months there were two allegations of sexual abuse. In one case the staff member receiving the allegation separated the alleged victim and abuser.

Instructions for Overall Compliance Determination Narrative

Departmental procedure describes the policy and practice to be followed to ensure that there is no retaliation against any inmate or staff member who reported sexual abuse or sexual harassment. The Assistant Warden is the staff member charged to ensure compliance to this policy. Classification staff monitors the conduct or treatment of inmates who report sexual abuse and who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by inmates or staff. Classification staff receives an appointment (IM05) to interview the inmate every 30 days. They conduct periodic checks up to 90 days but beyond if the Assistant Warden feels the situation requires it. Interviews were being conducted with the inmate. I could not determine if Classification staff looked at inmate disciplinary reports, housing, and or program status changes. Computer appointments were documented. Recommend retraining staff on reviewing disciplinary, gain time, job assignment and any program changes made. Training was completed in August 2018.

Review of records and training show staff have been trained in retaliation review. Records reviewed show staff interviewing the inmate, checking his disciplinary record, housing assignment and program changes that may have accrued during the reporting period.

Instructions for Overall Compliance Determination Narrative

The Department of Corrections Office of Inspector General conducts investigations into allegations of sexual abuse and sexual harassment objectively for all allegations, including third-party and anonymous reports. Third party and anonymous reports are treated no different than a first person report. The inspector conducts all investigations immediately on being notified of the allegation. Based on his interview the credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person's status as inmate or staff. The inspector's training records and interview demonstrated the special training they received from Department trainers. Inspectors are responsible for gathering and preserving direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the preponderance of evidence appears to support criminal prosecution, the Office of the Inspector General conducts compelling interviews. A substantiated allegation of conduct that appears to be criminal is referred for prosecution. Administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse and document in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations document in a written report that contain a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Procedure 602.053 requires all inmates be offered medical and mental health evaluations to those who were sexually abused in any prison, jail or juvenile facility including follow up services. Inmate victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Bay Correctional Facility through Correct Care Solutions (CCS) offers mental health services to all known inmate abusers, if appropriate. The facility also offers mental health service to all known inmate victims as well. Treatment services are provided to the victim without financial cost. This practice was confirmed by interviews with staff and inmates; and medical and mental health documentation demonstrates there is on-going medical and mental health care for sexual abuse victims and abusers. The auditor received information on the flash drive prior to the on-site audit.
