OFF-SITE CORRECTIVE ACTION PLAN ASSESSMENT

of

GADSDEN RE-ENTRY CENTER

for the

Physical and Mental Health Survey Conducted July 6-8, 2021

CMA STAFF

Kathy McLaughlin, BS Monica Dodrill, RN

I. Overview

On July 6-8, 2021, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Gadsden Re-Entry Center (GADRE). The survey report was distributed on August 2, 2021. In September 2021, GADRE submitted, and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the GADRE survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

Summary of CAP Assessments for Gadsden Re-Entry Center

CAP#	Request Date for Monitoring Documents	CAP Assessment Date	Assessment Location	Total # Survey Findings	Total # Open Findings	Total # Findings Closed
1	3/2/22	3/10/22	Off-site	10	0	10

II. Physical Health Assessment Summary

The CAP closure files revealed sufficient evidence to determine that 4 of the 4 physical health findings were corrected. All physical health findings are closed.

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
CARDIOVASCULAR CLINIC PH-1: In 8 of 16 records reviewed, there was no evidence that low dose aspirin was prescribed	Х				

Finding	Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met
NEUROLOGY CLINIC	X				
PH-2: In 2 of 2 records					
reviewed, there was no					
evidence of a complete					
neurological evaluation.					
CONSULTATIONS	X				
PH-3: In 3 of 3 records					
reviewed, there was no					
evidence the consultation log					
was complete and/or accurate.					
INSTITUTIONAL TOUR	X				
PH-4: There was no evidence					
that dorm first aid kits were					
inspected monthly.					

III. Mental Health Assessment Summary

The CAP closure files revealed sufficient evidence to determine that six of the six mental health findings were corrected. All mental health findings will close.

Closed	Open: Evaluation of records indicated an acceptable level of compliance was not met	Open: No episodes were available for review	Open: Institutional monitoring was inadequate	Open: Institutional monitoring indicated compliance was not met

IV. Conclusion

Physical Health

All physical health findings will close.

Mental Health

All mental health findings will close.

All findings as a result of the July 2021 survey are closed and no further action is required on this CAP. The CMA appreciates the efforts to improve services and documentation at this institution and continues to encourage ongoing quality improvement activities to ensure that the proper provision of health care services is maintained.
